

18th International Conference on Network and Service Management
Intelligent Management of Disruptive Network Technologies and Services
31 October - 4 November 2022, Thessaloniki, Greece

CALL FOR TUTORIALS

Tutorials are an integral part of the program of CNSM 2022. They provide participants with broad and comprehensive overviews of emerging fields in management of information, networks and communication technology. Experts are invited to submit half-day (3 hours) tutorial proposals. Full-day tutorials as well as tutorials including hands-on experience are also warmly welcome.

Topics of Interest (but not limited to)

- Cognitive network and service management
- Data analytics for network and service management
- Machine learning and network intelligence
- Management of Internet of Things
- Managing software-defined infrastructures
- Network Function Virtualization management
- Managing converged networks and services
- Managing cloud computing and services
- Wireless network management
- Security management
- Smart grid management
- Smart devices management
- Managing future networks
- Green communication management
- Blockchain for network and service management
- Management of blockchain networks and transactions
- Self-driving networks
- Connected and autonomous networks
- DevOps for network management
- Cloud-native communication networks

Important Dates

Tutorial Proposal Submission:
May 16, 2022
Acceptance Notification:
May 30, 2022
Camera Ready Abstract due:
16 September 2022

General Co-Chairs:

Marinos Charalambides,
Huawei Technologies, Belgium
Panagiotis Papadimitriou,
University of Macedonia,
Greece

Tutorial Co-Chairs:

Marc-Oliver Pahl,
IMT Atlantique,
France
Ilias Sakellariou,
University of Macedonia,
Greece

Submission Instructions

If you are interested in presenting a tutorial at CNSM 2022, please fill in the Tutorial Proposal Form and submit it to the Tutorial Co-Chairs.

The tutorial form can be found in <http://www.cnsm-conf.org/2022/cft.html>.

Additional Information

Once accepted, a tutorial will be held provided that there is a minimum audience of 5 registrants for the tutorial. A stipend of 300 Euros or one free full conference registration will be offered for a half-day tutorial and 600 Euros or 300 Euros + free full registration for a full-day tutorial (to be shared among speakers for a particular tutorial if more than one speaker presents the tutorial). As for most conferences, travel and other expenses are to be covered by the tutorial speakers themselves. For further information, please contact the Tutorial Co-Chairs.
