

Call for Demos

Important Dates

Submission Deadline: 5 August, 2024
Acceptance Notification: 30 August 2024
Camera Ready : 13 September 2024
Conference: 28 – 31 October 2024

The 20th International Conference on Network and Service Management (CNSM 2024) calls for demonstration proposals on research prototypes, covering all aspects of the management of networks and services, pervasive systems, enterprises, and cloud computing environments. Demonstrations showcasing new working systems, innovative applications, ground-breaking ideas, and novel concepts related to network and service management are most welcome.

For specific topics of interest relevant for the conference please refer to the main CFP: <http://www.cnsm-conf.org/2024/files/cnsm2024-cfp-flyer.pdf>

Types of Demos

The expected types of contributions include but are not limited to:

- Demos from authors about the concepts presented in their paper(s)
- Demos from faculty and academic research groups related to CNSM areas
- Demos from industrial researchers

A demo will consist of a poster, a live demo, and some slides and videos according to your planned presentation.

A best demo award will be presented at the CNSM 2024 closing ceremony.

Submission Guidelines

Prospective authors are invited to submit demo proposals, preferably incorporating a demo system architecture illustration, using the IEEE 2-column conference format, and are limited to 3 pages including references. Besides the technical approach and methodology, the proposal should describe what the CNSM audience will experience during the demonstration. The proposal should provide the demo background and further focus on the demo settings and the application, possibly with visual outcomes to illustrate the scope of the demo.

Demo papers must be submitted electronically through EDAS in PDF format only.

Demo papers will be peer-reviewed and accepted demo papers will be included in the digital conference proceedings provided to CNSM attendees. Papers accepted and presented at CNSM 2024 will be published as open access on the conference website and will be submitted for possible publication in IEEE Xplore.

At least one author of each accepted demo paper proposal is required to register to CNSM conference and present the demo at the scheduled demo session.

Please feel free to contact the Demo Co-Chairs should you have any questions regarding the demo content or setup.

You can contact the Demo Co-Chairs of CNSM 2024 by e-mail to the following addresses:

Péter Orosz, Budapest University of Technology and Economics (BME), Budapest – Hungary, orosz@tmit.bme.hu
Martin Žádník, Brno University of Technology, Brno – Czech Republic, zadnik@cesnet.cz
