

18th International Conference on Network and Service Management
Intelligent Management of Disruptive Network Technologies and Services
31 October - 4 November 2022, Thessaloniki, Greece

CALL FOR PAPERS

The 18th International Conference on Network and Service Management (CNSM) is inviting authors to submit original contributions in network and service management research. CNSM 2022 is a selective single-track conference, covering all aspects of the management of networks and services, pervasive systems, enterprises, and cloud computing environments. CNSM 2022 is technically co-sponsored by the IEEE Communications Society, IFIP, and ACM's in-Cooperation support. The core track will be accompanied by a series of workshops and poster sessions.

Papers accepted and presented at CNSM 2022 will be published as open access on the conference website and will be submitted to IEEE Xplore and IFIP Digital Libraries. Authors of selected papers, accepted for publication in the CNSM 2022 proceedings, will be invited to submit an extended version of their papers to the IEEE Transactions on Network and Service Management journal.
